

## Compliance Officer Training

You don't have to piece together information from seminars to figure out what you should be doing to be successful as a Compliance Officer.

The goal here is to:

- Understand the requirements
- Understand the responsibilities of a Compliance Officer
- Develop a compliance program
- Policy and Procedure development
- Learn the tasks associated with the required Elements
- Conduct a Compliance Risk Assessment
- Learn to develop an audit plan and conduct audits
- Staff Training

The 8 week course is designed to be convenient by receiving modules each week to review at a convenient time. A time period will be available for questions after each module is reviewed. A final test will be administered for a certificate of completion.

Course Information: **Begins Week of June 3, 2019**

Payable to : Health Care Program Design LLC  
5165 Broadway Ste. 226  
Depew, NY 14086
