

HIPAA Officer Training

HIPAA Officer / Privacy Officer / Security Officer

The goal of this course is to:

- Understand the requirements
- Understand the responsibilities of a HIPAA/Privacy/Security Officer
- Develop a HIPAA compliance program
- Policy and Procedure development
- Learn the tasks associated with HIPAA Standards and Implementation Specifications
- Conduct a HIPAA Privacy and Security Risk Assessment
- Gap Analysis report
- Contingency Plan development
- Learn to identify threats and risk areas to address
- Learn to develop an audit plan and conduct audits
- Staff Training
- IT Asset Inventory
- HIPAA Technical requirements

The 12 week course is designed to be convenient for the student by receiving modules each week to review. A time period will be available for questions after each module is reviewed. A final test will be administered for a certificate of completion.

Course Information: Begins January 15th 2019
